---

Good morning,

Any continuing oversight with the modern plastics site would occur at the state level with MDEQ. All records regarding the removal are maintained with the R5 Superfund records center and administrative records are available for public release there. Please let me know if there is something specific you are seeking, and I can let you know if I can offer any assistance.

Mike Beslow  
OnScene Coordinator  
US EPA

Please excuse any misspelled words or grammatical errors in this email, as it was sent from a portable device.

Hi Julie,  
Mike Beslow is the on scene coordinator who remains responsible for Modern Plastics. I've copied him on this email so that you also have his address. Please feel free to contact him with questions re: Modern Plastics.  
Thanks,  
Jennifer

Subject: hopefully quick question

Hi, Jennifer,  
I recently learned that the US EPA Region 5 conducted Emergency Response activities at the Modern Plastics site in Benton Harbor in 2010.  
Modern Plastics is situated just to the south of the Harbor Shores golf course along North Shore Drive about a quarter mile from the Paw Paw River.  
A memorandum regarding the contemplated removal action was written by Michael Beslow of Region 5.  
I would like to know who, if anyone, from the US EPA has continuing oversight responsibilities for Modern Plastics. (It appears that the "emergency" activity was concluded in 2010.) Also, I would like to know when the Administrative Record will be available and the repository (ies) where it will be maintained.

Thanks!

Julie Weiss
